

Agreed temperature and
time delivery conditions

BENEFITS OF BLOCKCHAIN BASED WORKFLOW

Increased competitiveness

Delivery, specifications,
conditions, price benefits
business opportunities etc.

By creating a contract
library contracts will
become standardised and
can be used to attract
clients

Reduction procedures

Less paperwork
More efficient workflow
Reduce cost

By creating a volatility risk
monitoring system we
reduce potential volatility
while using crypto
exchange

Increase acceptance to
“share” documentation

Increase security

lot tracking
sensors

By creating a notary an
additional trust layer is
created diversifying clients
options

Increase cooperation

Trust layer
Higher potential
transparency
